

ABSTRACT

WA-I-490

MASON-DIXON LINE: MILESTONE NO. 109(113)

1767 (reset 1902)

Fairview, Maryland vicinity

Public/private

Milestone No. 109(113) marks Mason and Dixon's 109th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line, later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. It is an original milestone of 1767, quarried and carved in England of oolitic limestone; is in fair condition, slightly altered, but firmly in place at its original site, preliminarily surveyed in 1765, monumented two years later and reset in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. It is significant on the national and state levels primarily as one of 135 original monuments in the thematic group series of some 248 markers still defining the West Line. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary, it is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Milestone No. 109(113) marks Mason and Dixon's 109th horizontal mile west of the northeast corner of Maryland, the beginning of their 230.228-mile West Line. It is an original milestone of 1767, in fair condition, /^{slightly} altered, and at its original site, preliminarily surveyed in 1765, monumented two years later, and reset more securely in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary.

The area here is rural, sparsely settled, comparatively level and mostly open farmland, /^{interspersed} with large patches of deciduous woodlands. The site is within Election District 13 of Washington County, MD, and Montgomery Township of Franklin County, PA; about ½ mile north-northeast of the scattered settlement of Fairview, MD; at a point about 1600 feet east of Fairview Church Road/LR-28043 at the Line and about 1000 feet south-southwest of a private lane leading past the Lewis Burkholder farmhouse to a farm further east; in a scraggly hedgerow, about 10 feet east of a north-south barbed wire fence along the east edge of the Burkholder dairy farm pasture and a woods on the adjacent property east. It cannot be seen from any road or lane, nor easily from nearby; and seems to be protected by the hedgerow, a slight rise and /^a stoney uncultivable site.

The milestone, as with all original Mason and Dixon West Line monuments, is an embellished oolitic limestone post with a low pyramidal top, quarried and carved in England, and originally measured about 12 inches square by about 4½ feet long, cut to stand about 3 feet high with the base left rough-cut for setting into the ground. The distinguishing decorative features are the vertical fluting with horizontally-fluted margins on all four sides, and the Roman capital letters P on the north side facing Pennsylvania and M on the south side facing Maryland, each V-sunk in the center of a plain shallow circle panel near the top. It now measures about 11½ inches square by about 20 inches above its concrete foundation; all surfaces are very weathered and chipped, as are all edges and the top corners; most fluting remains but only a few bits of margins; the P has been botched up by crude reworking, the M is scarcely discernible and chipped, traces of the circle panels remain; the top is now dome-shaped instead of pyramidal and is capped by a U.S. Coast and Geodetic Survey metal disk (Reference Mark No. 2, CRAIG, 1935).

STATEMENT OF SIGNIFICANCE

Milestone No. 109(113) is significant on the national and state levels primarily as one of 135 original Mason and Dixon monuments in the thematic group series of some 248 markers still defining their 230.228-mile West Line, the boundary later known as the Mason-Dixon Line, famous for its historical impact and innovative survey methods. The site was preliminarily surveyed in 1765, and milestone set two years later, where it remains in place, reset more securely in 1902 during the 1900-03 Resurvey of the Maryland-Pennsylvania boundary. Locally, as one of 48 original monuments marking the present Washington/Franklin-Fulton county boundary (10 crownstones; 38 milestones), No. 109(113) is also significant as one of a diminishing number of objects and structures with a visually identifiable relationship to the colonial and Civil War heritage of these counties.
